Rose Care

- Roses need at least 6 hours of direct sunlight, preferably all afternoon.
- Roses can be easily grown in large containers (18 inches or larger). Plant using 100% **Gardener's Gold Potting Soil**. Add appropriate amount of **Dr. Earth Starter Fertilizer** (Organic 2).
- In ground, dig hole twice the width and depth of the container. Plant using a mix of 1/2 **Gardener's Choice** Planting Mix and 1/2 native soil. Add appropriate amount of **Dr. Earth Starter Fertilizer** (Organic 2).
- Water thoroughly with **Root Master B-1** and repeat with each watering for 2-3 weeks.
- Feed with **Dr. Earth Rose and Flower Fertilizer** (Organic 3) every 4-6 weeks. For systemic pest control, use Bayer 2 in 1 Rose Food or Bayer All in One with fungicide.
- Watch for insects and fungus such as powdery mildew, rust and black spot. Contact us for the most effective control.
- In late January or early February, roses should be pruned and sprayed with **Liqui-cop** and **All Seasons Spray oil** to kill overwintering insects and diseases.

2009 Roses

Pink promise AARS All-America Rose Selections winner

This award winner has been chosen to represent the National Breast Cancer Foundation. A portion of each plant sold will go to the Foundation as they search for the cure. Beautifully formed pink and cream blend flowers on long stems lend it perfectly to cutting. Hybrid tea.

AARS All-America Rose Selections winner

Cinco de Mayo

An indescribable blending of smoked lavender and rusty red-orange. A true rainbow of colors. Super clean, glossy-green foliage compliments the flower power of this novel beauty.

Lady Bird

A large-flowered coral orange hybrid tea with striking, warm bloom color, great vase life and long stems.

Legends

Large buds and blossoms of rich ruby red hold their brilliance from beginning to end. Chosen to pay tribute to the wonderful women honored during Oprah's Legend weekend.

Summer Love

Big voluptuous full flowers of gentle lasting yellow-sometimes tinged with just a touch of pink. Hybrid tea.
